

Understanding **LEAN MANUFACTURING** and **MANAGEMENT**

23 MAY 2022

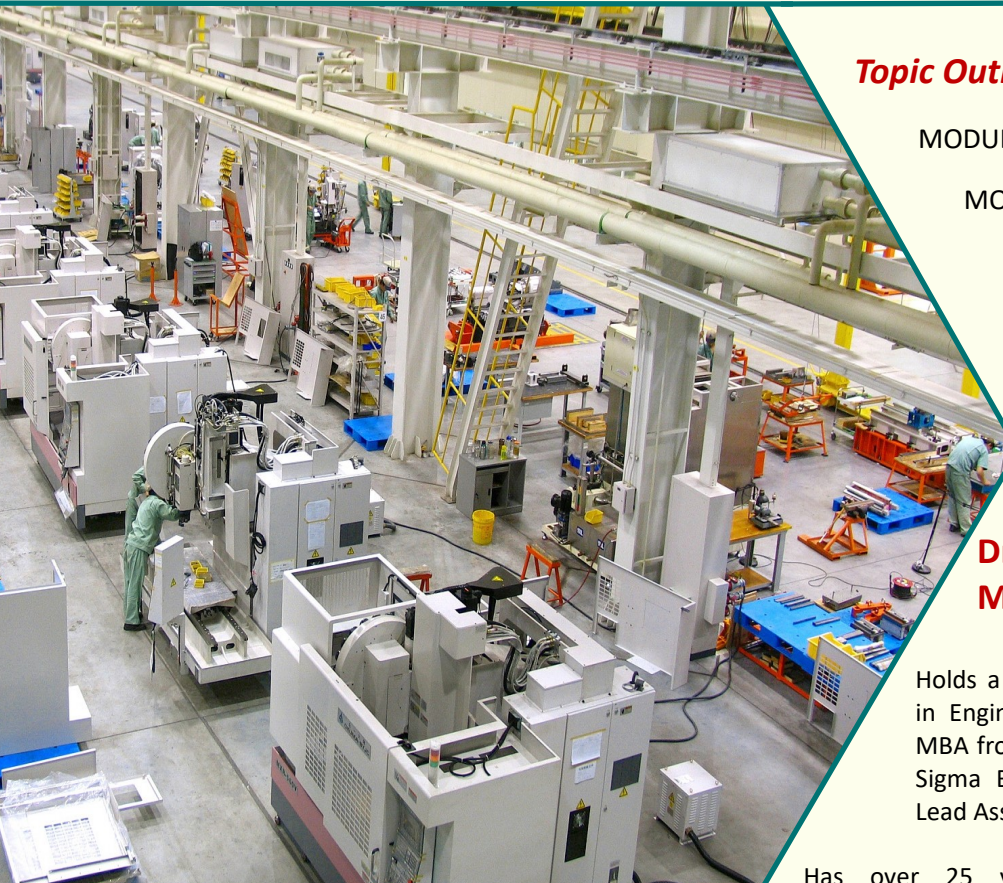

9 AM - 5 PM

VIA MICROSOFT TEAMS

REGISTRATION RM 60 PER PAX

In 1988, Taiichi Ohno, a Japanese industrial engineer who was known as the father of Toyota Production which inspired LEAN in the US famously said that the essence of LEAN is to reduce the time from the customers' orders to the final receipt of the product, by eliminating all activities that are considered waste and do not add value to customers. This webinar on LEAN manufacturing and management will teach you how to continuously seek out for waste resources and eliminate them throughout the entire enterprise and chain value.

Do not miss out this opportunity to understand the logic and concepts behind LEAN manufacturing, applying the core tools of LEAN manufacturing, deriving a state vision for the future through Kaizens. You will also learn how to effectively lead the LEAN initiatives, articulate different tools and ultimately, saving cost by having proper LEAN system.

Topic Outlines

MODULE 1 – Introduction

MODULE 2 – 8 Types of Waste

MODULE 3 – Kaizen Approach

MODULE 4 – Understanding 5S
