

Sharing Session on **LATEST DEVELOPMENTS AND INNOVATIONS**

RELATED TO **GRAPHENE IN MALAYSIA**

- 7 March 2023
- 2.30pm- 6:00pm
- Via Microsoft Teams

Malaysian Rubber Council (MRC) is organizing a “Sharing Session on Latest Developments and Innovations Related to Graphene in Malaysia” with the primary goal of enhancing Research & Development & Commercialization & Innovation (R&D&C&I) activities and driving new value creation for Malaysia’s rubber industry. The topic was chosen with the aim to increase the awareness and understanding of graphene, a cutting-edge material among rubber industry players in Malaysia, and to promote the uptake of innovative technologies, moving forward.

In this session, attendees can expect to gain a deeper understanding of graphene’s potential and how it can improve the properties of rubber-related products. On top of the global and local outlook of the material and its applications, the attendees as well could aspect to learn more about the latest offerings by NanoMalaysia Berhad and MRC, in adopting graphene.
