## 马来西亚： 您的优质橡胶产品来源

With sound manufacturing practices and continuous innovation, Malaysian manufacturers have proven themselves capable of adapting to meet specific customer requirements. The Malaysian rubber industry also has the advantage of R&D support and testing laboratories provided by the Rubber Research Institute of Malaysia and the Tun Abdul Razak Research Center (TARAC) in the United Kingdom.

Malaysia is a major exporter of high quality rubber products. Malaysia has successfully progressed from largely an exporter of raw natural rubber to an exporter of a wide range of value-added rubber products. Malaysia is also widely recognized for its competitiveness in meeting the world's demand for high quality rubber and rubber products.
