

# MALAYSIA:

## QUALITY RUBBER GLOVES FOR ULTIMATE PROTECTION

Malaysia is a major exporter of high quality rubber products. Malaysia has successfully progressed from largely an exporter of raw natural rubber to an exporter of a wide range of value-added rubber products. Malaysia is also widely recognized for its competitiveness in meeting the world's demand for high quality rubber and rubber products.

With sound manufacturing practices and continuous innovation, Malaysian manufacturers have proven themselves capable of adapting to meet specific customer requirements. Today, Malaysia is world's largest exporter of rubber gloves and rubber catheters.

The Malaysian rubber industry also has the advantage of R&D support and testing laboratories provided by the Rubber Research Institute of Malaysia (RRIM) and the Tun Abdul Razak Research Center (TARRC) in the United Kingdom.
