

ESG REPORTING & COMPLIANCE WORKSHOP FOR THE RUBBER INDUSTRY

ESG REQUIREMENTS TO PRACTICAL ACTION

23 - 24 September 2026 | 9.00 am - 4.30 pm

📍 Sofitel Kuala Lumpur Damansara

Strengthen Your ESG Readiness

As global customers, investors, and regulators place increasing emphasis on Environmental, Social and Governance (ESG) performance, ESG reporting and compliance have become critical business priorities across the rubber industry value chain.

Join this intensive two-day workshop to gain practical knowledge, tools, and strategies for implementing ESG practices, meeting reporting expectations, and preparing your organisation for evolving sustainability requirements.

The Malaysian Rubber Council (MRC) has developed an updated ESG Guidelines to provide a practical and industry-specific approach to ESG implementation for the Malaysian rubber industry. This programme aims to strengthen the Guidelines' practicality, clarity, usability, and relevance, enabling stakeholders to effectively integrate ESG principles into their business operations.

Objectives

To enhance ESG awareness by cultivating a deep understanding of Environmental, Social, and Governance (ESG) principles, fostering a culture of sustainable and responsible business practices.

To provide practical guidance on the application of the ESG Guidelines and its supporting tools, including ESG maturity assessment, materiality assessment, action planning, supplier due diligence, greenhouse gas (GHG) starter tools, and ESG reporting templates.

To support participants in aligning their sustainability practices with evolving ESG expectations, regulatory requirements, and international sustainability reporting practices.

Aligned with Key Sustainability Frameworks & Regulatory Developments

The enhanced ESG Guidelines are developed with consideration of leading sustainability frameworks and emerging regulatory requirements, including:

- National Sustainability Reporting Framework (NSRF)
- International Financial Reporting Standards (IFRS S1 & S2)
- i-ESG
- European Sustainability Reporting Standards (ESRS)
- EU Corporate Sustainability Reporting Directive (CSRD)
- GHG Protocol
- Selected ISO Management System Standards

Target Participants

- Sustainability / ESG Personnel
- Management Representatives
- Compliance Officers
- Quality, Environmental and Operations Personnel
- Industry Stakeholders Interested in ESG Reporting

Speaker

Ts Raja Shazrin Shah

ESG Strategy, Decarbonization, Sustainability
