

# MARKET UPDATES ON GLOVES CONSUMPTION IN MALAYSIA

**17 January 2023**  
**10.30am-12.30pm**  
**Via Microsoft Teams**

**MRC Members – Free of Charge**  
**Non-Members – RM100 per pax**

MRC is pleased to kick start the new year with a market information seminar to present the study on the Market Updates on Gloves Consumption in Malaysia. We are pleased to extend an invitation to the rubber industry members to this seminar which will highlight the findings from the market research study carried out by MRC. Participants will acquire insightful information on the consumption patterns, supply landscape, procurement practices and regulatory landscape of gloves in Malaysia.

More than 99% of the disposable gloves produced in Malaysia are exported and only 0.05% to 1% are consumed in the domestic market. Why is this such? We will take a look into the six sectors covered namely medical, pharmaceutical, semiconductor, medical devices, food processing and food & beverages. Findings from this study will help participants to have a better understanding on the gloves consumption across these industries. This market updates will also assist industry members to gain relevant market information and highlight on some of the initiatives taken to boost the domestic consumption.
