MRC is developing the ESG Guidelines for the Malaysian Rubber Industry. This guidelines aim to support industry players by streamlining key compliance requirements, enabling companies to utilise a standardised approach for regulatory adherence and ensuring greater consistency, transparency and efficiency in sustainability reporting.

Aligned with global ESG frameworks such as the Global Reporting Initiative (GRI) and the Sustainable Development Goals (SDGs), the guidelines also integrate key industry standards and regulations, including the Malaysian Sustainable Nature Rubber (MSNR).

Your inputs and participation is key in developing specific rubber industry ESG guidelines - be part of the change!

OBJECTIVES

- + Understanding of the legal obligations related to ESG reporting and compliance
- + Introduce the ESG Guidelines for the Malaysian Rubber Industry
- + Provide feedback to improve the guidelines and checklist for better accessibility and alignment

PRESENTERS

Lai Jia Woei
