Procurement Programs and Best Practices

20th October 2021

| 2:30^{pm} - 4:30^{pm}

The Malaysian Rubber Council (MRC) continues the IDO webinar series to introduce rubber medical device companies to two main export opportunities; The Global Fund's COVID-19 Response Programs (through i+Solution) and the African Medical Supplies Platform (AMSP). Through MRC's collaboration with Development Finance International, Inc. (DFI), companies will learn how they can map their export strategies to leverage on opportunities offered by the Global Fund and AMSP:

- AMSP was launched by the African Union in 2020 to connect Ministries of Health across African continent with reliable vendors of COVID-19 equipment, especially rubber medical devices.
- Since 2020, The Global Fund has been supporting Ministries of Health across the globe deliver sustainable access to essential commodities through the i+Solutions, which serves as the Fund's dedicated procuring agent.

Objective

This webinar aims to provide further information about IDO procurement opportunities, specifically on processes and requirements under COVID-19 programs funded by The Global Fund and the African Union.

Agenda

- 2:30^{pm} Welcoming Remarks
- 2:45^{pm} IDO procurement best practices by DFI
- 3:15^{pm} The Global Fund's COVID-19 Response Programs with i+Solutions
- 3:45^{pm} Supporting Africa's medical needs with African Medical Supplies Platform (AMSP)
