Building customer-brand relationships have always been important, even more so in the Marketing 4.0 era. For brands to grow, their customers need to be happy. However, the brand journey is no longer as simple as it once was. Navigate the increasingly connected world and changing consumer landscape to reach more customers, more effectively. Today's customers have less time and attention to focus on your brand - they are surrounded by alternatives every step of the way. Businesses need to stand out, get attention and deliver the right message at the right time to the right people. For only RM60, this 1-day masterclass will provide the framework and methodologies to help you navigate your brand through Marketing 4.0 and be ready for future customer demand.
