# Greenhouse Gas Emission Assessment Training Programme for Scope 3

+

**15 - 16 July 2026**  
8.30am to 5.00pm

**BT2 & BT3,  
Malaysian Green Technology and  
Climate Change Corporation (MGTC)**

**Complimentary for all MRC Members and Non-Members**

The Greenhouse Gas (GHG) Emission Assessment Training Programme for Scope 3 is designed to strengthen industry capability in measuring and managing value chain emissions, with a focused approach on Category 1: Purchased Goods and Services and Category 5: Waste Generated in Operations. This programme is tailored to support rubber companies in building practical, data-driven competencies aligned with increasing ESG and carbon reporting expectations.

Through a structured combination of presentations, guided discussions, and hands-on exercises by GHG experts, participants will gain a clear understanding of Scope 3 emission sources, fundamental GHG accounting principles, and calculation methodologies applicable to selected activities under both categories.

## Key Highlights

- Overview of basic principles, approaches, and methodologies in GHG accounting
- Hands-on emission calculation training for selected Scope 3 emissions
- Build practical assessment capacity of the rubber companies
- Common challenges in activity data collection and emission calculation

## Speaker

**Wan Faizal Mohd Anwar**

Advisor,  
Advisory & Consultancy  
**MGTC**

**Norzarifah Ismail**

Lead Consultant,  
Advisory & Consultancy  
**MGTC**

## Who Should Attend

- Professionals who have been assigned to calculate GHG emissions for their company
- Professionals who have been assigned to engage and manage GHG consultants who calculate GHG emissions for the company
- Business owners or stakeholders that are interested to initiate GHG emission calculation for their company

*This programme is essential for anyone in the rubber manufacturing industry, aiming to practice low-carbon operations and remain competitive in the evolving global landscape by taking the first step in conducting GHG Assessment.*

## Programme

### Day 1:

#### Scope 3 Category 1: Purchased Goods & Services

Time	Topic
8.30 am	Registration
9.00 am	Welcoming Remarks by MRC
9.20 am	Introduction to Scope 3 GHG Emission Sources
9.50 am	Understanding Category 1: Purchased Goods and Services
10.30 am	Coffee Break
10.45 am	Emission Calculation Approaches: Activity Data & Emission Factor
11.15 am	Procurement Data Analysis
12.00 pm	Screening & Prioritisation
1.00 pm	Lunch
2.00 pm	NAICS & Emission Factors
3.00 pm	Exercise
3.30 pm	Coffee Break
3.45 pm	Exercise (continued)
5.00 pm	End of Day 1

### Day 2:

#### Scope 3 Category 5 Waste Generated in Operations

Time	Topic
8.30 am	Registration
9.00 am	Recap Training Day 1
9.50 am	Understanding Category 5: Waste Generated in Operations
10.30 am	Coffee Break
10.45 am	Emission Calculation Approaches: Activity Data & Emission Factor
1.00 pm	Lunch
2.00 pm	Emission Calculation Approaches: Activity Data & Emission Factor (continued)
3.00 pm	Exercise
3.30 pm	Coffee Break
3.45 pm	Exercise (continued)
4.45 pm	Wrap-Up & Closing
5.00 pm	End of Day 2
