

OCCUPATIONAL SAFETY & HEALTH (OSH)

COORDINATOR COMPETENCY PROGRAMME

14 - 16 May 2024
Aloft Kuala Lumpur Sentral
MRC Members: **RM180**
Non-MRC Members: **RM450**

RSVP by:
3 May 2024

The training session will encompass a variety of methodologies to effectively convey the necessary information. Through lecture presentations, participants will receive a comprehensive overview of the requirements outlined in the Occupational Safety & Health Act 1994 and the Factory & Machinery Act 1967. Furthermore, group discussions and presentations will facilitate a deeper understanding of OSH management fundamentals which allowing participants to share insights and perspectives. Case studies will be utilised to illustrate real-world applications and challenges, fostering critical thinking and problem-solving skills among attendees. Additionally, dedicated Q&A sessions will provide an opportunity for clarification and deeper exploration of key concepts, ensuring participants leave with a thorough understanding of chemical management, occupational diseases, Hazard Identification, Risk Assessment & Risk Control procedures, material handling, workstation design, lighting, and safety protocols surrounding productive machinery, as well as the necessary premises and workplace welfare facilities required for a safe and conducive working environment.

TRAINER

DR. V. RAMACHANDRAN

Dr. Ramachandran, with extensive qualifications including a PhD in Occupational Safety & Health from the USA and certifications as a Lead Auditor for ISO Occupational Safety & Health Management and ISO 22301 – Business Continuity Management System, boasts over 30 years of industrial expertise. Specialising in setting up Safety Management Systems for multinational corporations, he excels in a plethora of areas including Leadership Programmes, OSH Compliance, Crisis Management, and Risk Assessment, among others. His advisory contributions to construction projects valued over RM2.2 billion underscore his significant impact in the field. A distinguished member of various professional associations such as Malaysian Occupational Safety and Health Practitioners' Association (MOSHPA), American Society of Safety Engineers (ASSE), and the Human Factor & Ergonomics Society of Malaysia, his excellence was recognised with the prestigious Gold Class 5-Star OSH Trainer Award in 2023 by MOSHPA.
