

# LATEX 201

## Malaysian Rubber Export Promotion Council

### Objective

To provide advanced knowledge of latex, focusing on the practical applications and innovations to meet the demand on new materials for the industry.

### Who Will Benefit

This 5-day programme is tailored for those who are equipped with basic understanding of latex technology and wish to enhance their knowledge in the development of the latex industry.

### Speaker Profile

Dr. Ho received his BSc (Hons) Degree from the University Of Malaya in 1968, and MSc and PhD from the University of Bristol, England in 1969 and 1972 respectively. He was formally trained in Colloid and Surface Science, the forerunner of nanoscience, at the MSc programme in Bristol and his PhD thesis was on the synthesis of polystyrene latex and their interaction with methyl cellulose.

He has been researching on surface and colloidal behaviour of polymeric materials ever since. Currently Dr. Ho is an Adjunct Professor of Universiti Tunku Abdul Rahman (UTAR).
