

MALAYSIA

World's No. 1 in Surgical Gloves

Established Reputation

Malaysia is the world's largest exporter of surgical gloves made from natural and synthetic latex.

Extensive Range

Malaysian manufacturers are able to meet different requirements of users including different materials, formulations, glove design, thickness and surface treatments. Made in Malaysia surgical gloves offer the best protection in a healthcare environment.

High Quality

Malaysian manufacturers produce high quality surgical gloves that are competitively priced and meet international standards. Surgical gloves from Malaysia conform to standards such as the ASTM D3577, EN 455 and ISO 10282.
