# Advantages of Made-in-Malaysia Condoms

## High Quality

Malaysia is well-known throughout the world for its production of high quality natural rubber latex, derived from the sap of the hevea brasiliensis tree, which is widely grown in Malaysia. This high quality latex is used by Malaysian condom manufacturers to produce premium quality condoms. These condoms are wrapped in foil packaging and sealed using advanced equipment to protect them from deterioration as well as to preserve their reliability, even under the most adverse storage conditions.

## Effective

Made-in-Malaysia natural rubber condoms are highly effective against most sexually transmitted diseases, including the HIV virus. Various studies have shown that natural rubber condoms with better tensile strength and greater ultimate elongation are more resistant to breakage than condoms made from other materials.

## Environment Friendly

Natural rubber is an inherently environment-friendly material and rubber trees contribute to environmental protection. Condoms made from Malaysian natural rubber are biodegradable, while condoms made of synthetic materials do not break down easily after disposal.

## International Standards

Malaysian made condoms are manufactured and tested to meet the requirements of stringent International Standards such as ISO 4074:2002, ASTM D 3492:2003 and BS EN ISO 4074:2002.

## Varieties of Condoms

There are various types and dimensions of condoms produced by Malaysian manufacturers, which can generally be differentiated as follows:

### Shape

Baggy, contoured, thick head, teat-ended, straight-sided

### Size

49mm ± 2mm, 52mm ± 2mm, 53mm ± 2mm, 56mm ± 2mm

### Lubrication

Spermicidal, water-based, silicon-based T

### Texture

Smooth, dotted, ribbed or spiraled

### Colour

Natural, pink, blue, yellow, green, red, black, brown, orange, purple, gold, silver, bronze, duo-coloured, tri-coloured

### Flavour

Non-flavoured, banana, strawberry, raspberry, orange, durian, peach, honey dew, pineapple, green apple, grape, cherry, lemon, passion fruit, tutti frutti, peppermint, coffee, chocolate, vanilla

Automated dipping line for conformity to standards.

Burst test for safety assurance.

Condoms that offer safety, performance and pleasure.
