

# REDUCING RELIANCE ON WORKERS AND INCREASING COST EFFICIENCY

## AUTOMATION

### SUMIRUBBER MALAYSIA SDN BHD

**SUMIRUBBER MALAYSIA** implemented the **Ink-Jet Printing** and **Auto Glove Printing & Pairing Machine** which improves the process by replacing manual stamping and pairing with an automated system enhanced by vision camera to check the quality of the gloves.

As a result, the project benefitted the company by reducing 33% of manpower in the stamping and pairing sections and saving up to RM135,000 per year.

## 1909

**SUMIRUBBER MALAYSIA SDN. BHD. IS A SUBSIDIARY OF SUMITOMO RUBBER INDUSTRIES, JAPAN,** a company renowned for its **technological advancements** in the rubber industry since 1909.

### ESTABLISHED IN 1981 IN SUNGAI PETANI, KEDAH.

Sumirubber Malaysia leverages the availability of **high-quality natural rubber latex** to manufacture household rubber gloves. The company currently employs approximately **700 staff**.

## 1981

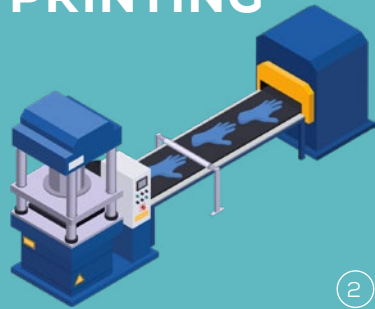

## 1980s

**SINCE THE 1980S, SUMIRUBBER MALAYSIA HAS BEEN EXPORTING ITS RUBBER GLOVES WORLDWIDE,** with a strong presence in **Europe** and **South America**, in addition to its traditional market in Japan.
