

The Tools Pack List

Use tools selectively after the Navigator and Quick Start Guide. Not every tool or all 29 topics will be relevant to every organisation, choose what supports applicable and material matters, existing systems and current maturity.

	Tool	Purpose
1	Company ESG Profile Tool	Identifies value-chain position, products, markets, customers, materials, maturity level, and standards exposure.
2	Maturity Self-Assessment	Places company into Core, Progressive, or Leading.
3	29-Topic Applicability Matrix	Helps company screen which topics apply.
4	Materiality Assessment Worksheet	Helps prioritise material ESG topics.
5	Evidence Register	Lists documents needed for each topic.
6	ESG Action Plan Template	Converts gaps into actions, owners, deadlines, and resources.
7	30-60-90 Day Starter Plan	Gives Core users immediate implementation steps.
8	ESG Data Ownership Matrix	Assigns responsibility for energy, water, waste, labour, OHS, supplier, and governance data.
9	Supplier Due Diligence Form	Supports traceability, supplier screening, EUDR/MSNR/customer requests.
10	GHG Starter Calculator	Supports Scope 1 and 2 data collection, plus basic Scope 3 screening.
11	ESG Reporting Template	Helps Progressive users prepare an ESG disclosure.
12	Roadmap Builder	Helps Leading users set targets, KPIs, timelines, and transition plans.
