Over Half A Century Of Expertise, Turned Into Quality Precured Treads.

Made in Malaysia Precured Treads for Various Type of Vehicles

The Most Sustainable Practice

- ✓ Made from natural rubber, an environment-friendly material
- ✓ Reduce carbon footprint in production and disposal
- ✓ More mileage and longer use via reduced rolling resistance with less fuel consumption

REPUTABLE

Established Reputation ★★★★★

Malaysia has over 140 years of experience in the rubber industry. Today, Malaysian manufacturers produce quality precured treads and retreading materials for various markets around the world.

Malaysia is the only country in the world that has product standards (Malaysian Standard) for precured treads to assure the quality of retreaded products. The Standards include MS1208 (Precured Tread), MS1348 (Cushion Gum), MS1097 (Rubber Compound) and MS224 (Retreaded Tyre).

TECHNICAL EXPERTISE

Excellent Rubber Compounds

Malaysian manufacturers have more than 80 years of experience and technical knowledge in formulating excellent rubber compounds which are critical to achieve durability and high quality precured treads. The manufacturers are also able to provide technical advisory and support for the entire production process for retreaded tyres.

WIDE RANGE

Diverse Range of Precured Treads

Made in Malaysia precured treads are available with a variety of patterns specifically to suit different types of road conditions (highway, regional, off road, urban) and vehicles such as cars, trucks, trailers, buses, earthmovers, tractors, aircrafts, and even military vehicles.

Advantages of Made in Malaysia Precured Treads

INTERNATIONAL STANDARDS

Modern Manufacturing Facilities

Malaysian manufacturers are equipped with modern manufacturing facilities that comply to international standards such as ISO 9001 and ISO 14001 to continuously produce high quality, reliable, and value-for-money precured treads.

Made in Malaysia precured treads are exported to over 30 countries globally such as Australia, Japan, Kenya, New Zealand and United States.

GOOD QUALITY

High Performance and Safety

Made in Malaysia precured treads are created to provide the best safety features to users such as anti-avulsion abilities, extra durability, excellent grip in all weather conditions, high resistance against heat, wear, chipping and cracking.
