

GB Industries Sdn Bhd

**FAGT SUCCESS STORIES**

## Advancing Through Automation

GB Industries Sdn Bhd which specializes in electrical safety products and heavy duty chemical resistant gloves was able to fully automate its testing process to minimise human involvement and maximise machine efficiency and productivity. Automating its testing processes enabled GB Industries to capture RM115,000 in estimated annual savings by halving manpower, where only one person is required to oversee the testing process as opposed to two persons pre-automation. The automation investment has also enabled GB Industries to migrate to auto data logging from manual recording for improved traceability and compliance.

GB Industries Sdn Bhd

### GB Industries Sdn Bhd

Established  
**1987**

Location  
**Rembau,  
Negeri Sembilan**

Workforce  
**270  
employees**

**SPECIALTY:** Manufacturing electrical safety products, specifically Rubber Insulating Gloves and Rubber Insulating Sleeves under the brand NOVAX® and Heavy Duty chemical resistant gloves and Glovebox gloves under the brand REMZBAUER®.

**EXPORT MARKETS:**  
Worldwide.

**PROJECT OBJECTIVE:**  
Fully automate the testing process to minimise human involvement and maximise machine efficiency and productivity.

**VALUE OF FAGT FUNDING:**  
**RM185,650**  
or 50% of the total project cost of  
**RM371,300**

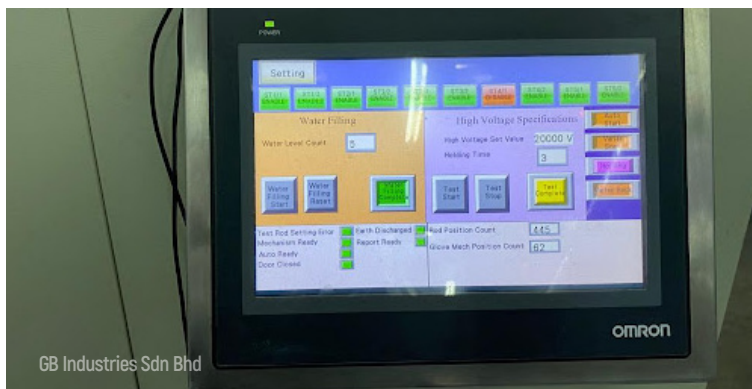

**COMPLETION DATE**  
**September 2022**

**PROJECT ACHIEVEMENTS**  
**50%**

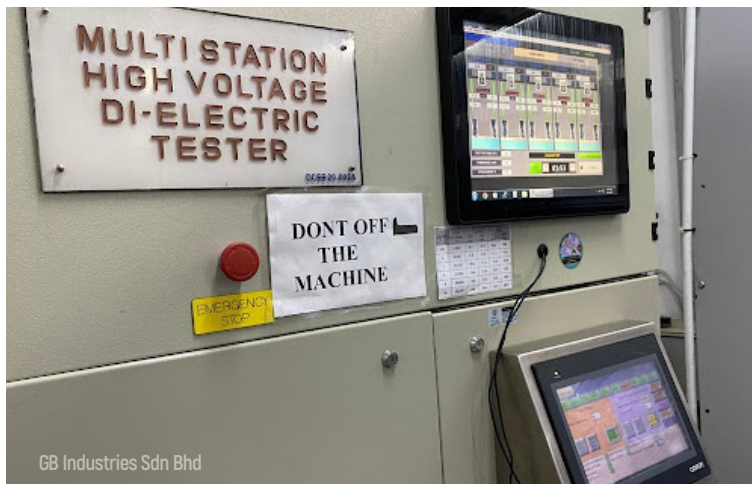

Successful reduction in manpower

Digitalised auto data logging for better traceability

**RM115,000**  
estimated annual savings
